PROFESSIONAL SUMMARY

Java Full Stack Developer with 4.5+ years of experience building enterprise web applications using **Java 8/17, Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices, Angular, TypeScript, PostgreSQL, and Oracle**. Hands-on experience in **real-time monitoring applications, third-party API integration, JWT authentication, SQL optimization, CI/CD (Jenkins, Docker)**, and production support in **Agile** teams. Delivered **30% faster HMI response, 45% faster data retrieval, and 70% less manual reporting effort**.

TECHNICAL SKILLS

Languages: Java 8, Java 17, TypeScript, SQL

Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Microservices, RESTful APIs, WebSocket, Spring AI

Frontend: Angular, TypeScript, Angular Material, HTML5, CSS3, Responsive UI, HMI Dashboards

Databases: PostgreSQL, Oracle, MySQL, Stored Procedures, Views, Indexing, Query Optimization

Security: JWT, Spring Security, Role-Based Access Control (RBAC), Validation, Exception Handling

Integration: Third-Party APIs, Email, SMS, Payment Gateway, Aadhaar/PAN Verification, PLC/IoT/Sensor Data

Tools & DevOps: Git, GitHub, Bitbucket, Gitea, SVN, Jenkins (CI/CD), Docker, Jira, Apache Tomcat, Swagger, Postman, Jasper Reports

Practices: Agile/Scrum, SDLC, Microservices Architecture, Debugging, Production Support, Performance Optimization

PROFESSIONAL EXPERIENCE

Java Full Stack Developer

Jan 2026 – Present

Hind Industec Pvt. Ltd. | Pune, Maharashtra

- Developed **Spring Boot** backend services and **Angular** HMI applications for real-time monitoring, control, and visualization of coke oven plant operations.
- Designed **RESTful APIs** to process live production data, **reducing HMI response time by 30%**.
- Built real-time dashboards and historical trend modules for temperature, pressure, current, force, and machine status, **cutting manual analysis effort by 50%**.
- Implemented business logic for machine operations, alarms, interlocks, and production workflows, **improving system reliability by 20%**.
- Integrated **PLC, IoT, and sensor data** with backend services and used **WebSocket** to stream live plant data to Angular dashboards.
- Optimized **SQL queries and database indexing**, **improving large-scale data retrieval performance by 45%**.

Key Project: Fluenta Coke Oven

Client: JSW / Jindal

Web-based HMI for real-time plant data, machine status, alarms, interlocks, and historical trends connected to PLCs. **Tech:** Java 17, Spring Boot, Spring Data JPA, REST APIs, Microservices, Angular, Oracle, WebSocket, Git

Software Developer

May 2022 – Jan 2026

Probit Software Pvt. Ltd. | Pune, Maharashtra

- Developed scalable **RESTful APIs** using **Spring Boot and Microservices** with focus on security, validation, and exception handling.
- Integrated third-party **Email, Payment, SMS, and Aadhaar/PAN verification APIs** to automate business workflows.
- Designed database schemas in **PostgreSQL and Oracle** and optimized SQL queries for performance.
- Built automated **Excel/PDF reports** with scheduled email delivery, **reducing manual reporting work by 70%**.
- Secured APIs with **Spring Security, JWT, and RBAC**, with centralized exception handling.
- Used **Git, Jenkins, and Docker** for CI/CD; tracked work in **Jira** using Agile/Scrum.
- Provided **production support**, debugging, and performance tuning for live government applications.

Key Project: Integrated Housing Lottery Management System (IHLMS 2.0)

Client: MHADA

Automated lottery workflows: applications, verification, allotment, payments, and scheduled reports; **reduced reporting time by 90%**. **Tech:** Spring Boot, Spring Data JPA, Oracle, PostgreSQL, Jasper Reports, Postman

Key Project: Post-Lottery Property Handover System

Client: PMRDA

Automated property handover with payment/interest calculations and generation of receipts, allotment letters, and NOCs.

Tech: Spring MVC, Spring Data JPA, PostgreSQL, Jasper Reports, Postman

Key Project: Demand & Assessment Survey

Dynamic survey application with dashboards, geo-tagging, Google Maps, and Aadhaar/PAN verification; **reduced survey processing time by 60%**. **Tech:** Spring Boot, Spring Data JPA, JHipster, PostgreSQL, Jasper Studio

PERSONAL PROJECTS

Dental Care Management System

Full-stack clinic management app (patients, appointments, services, admin) with responsive UI and **JWT authentication**. **Tech:** Angular, TypeScript, Angular Material, Java, Spring Boot, REST APIs, PostgreSQL

Salon Management and Booking Website

Responsive salon website with reusable components and backend-ready architecture. **Tech:** Angular, TypeScript, HTML5, CSS3, Java, Spring Boot

EDUCATION

Master of Computer Applications (MCA)

2019 – 2022

JSPM, Pune, Maharashtra | CGPA: 8.05/10

AWARDS

- **Star Performer of the Year** – Probitry Software Pvt. Ltd. (2023)
